

# GLOBAL PRAYER NET

## Prayers for New Fields That Have Opened and New Fields Yet To Come

In our world today, more than 4 in 10 people still lack access to the Gospel.

That is 4 in 10 people live in communities where they do not have a viable church. They do not have the opportunity to hear of a Father who loves them, that Jesus died to save them and that the Holy Spirit can transform them.

Global Partners has been aiming to mobilize and send missionaries some of the most unreached areas around the world. In the past couple of years, FIVE new fields have been open.

These new mission fields include immigrant and refugee communities, Muslim regions, and historically Buddhist areas—all with a significant need for the good news of Jesus Christ.

### Prayer Requests

- **Pray** that Global Partners would be able to expand its reach by sending more missionaries to new places.
- **Pray** for our newest fields that have opened this year - pray that our missionaries would be able to get visas, find places to live and make meaningful connections.
- **Pray** that the Lord would continue to open new doors and guide our steps forward
